WHAT IS A BLANCO UNIT?

Engineering kitchen joy – with German know-how.

BLANCO UNIT
drink. prep. clean.

Manufacturing experience you can trust

BLANCO is a German company with over 95 years of international experience in kitchen water places. Specialising in developing high-quality products that delight consumers with usability, quality and design. Creating lifestyle solutions for the sink area that we call the 'kitchen water place'.

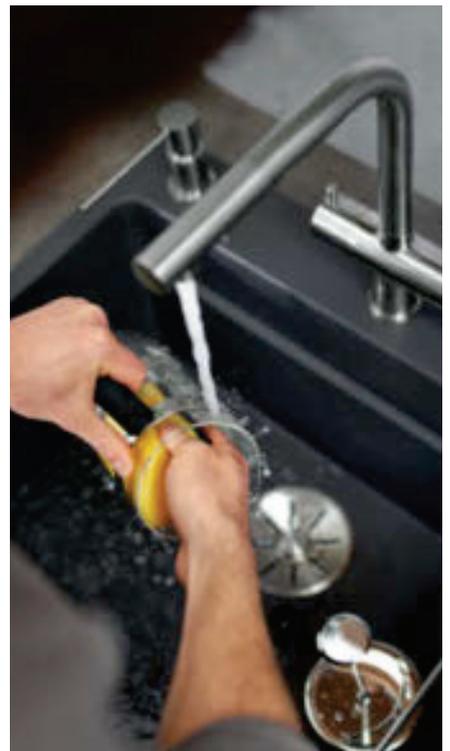

Where the kitchen joy starts

The water place is one of the most active areas in any household kitchen. We spend over 60% of our kitchen time in this space performing a wide variety of tasks. So it plays a large part in the way we experience the entire kitchen.

One of the main roles of the kitchen water place is as the source of water for drinking and cooking. In this function, ensuring water quality is the highest priority. So we use high-quality materials and expert design.

This area also plays a key role in supporting food preparation and cleaning, helping to keep us safe. The kitchen water place deserves only the most thoughtfully designed and integrated products that combine features to make tasks easier, more hygienic and more enjoyable.

Our clever water place solutions combine high-quality components that are designed to work together. Create joy with a BLANCO UNIT at the heart of the kitchen.

HOW TO CHOOSE A BLANCO UNIT

Seamlessly combined sink, tap and integrated cabinet organisation.

When planning a kitchen, incorporating the needs of the household is key to creating a space that supports their lifestyle. From eager foodies to gourmet chefs, we all actively use kitchens and appreciate them as the heart of our homes. We are all different, but we all want to enjoy the time we spend in the kitchen. That's why planning needs to start with the individuals. Understanding the way they use their kitchen, their rituals and idiosyncrasies are a good starting point.

Another key driver for individuality is design. Defining the desired style, colours and material combinations goes a long way towards finding the right kitchen elements. We invite you to explore and experience our various designs, colours and combinations - mix and match to create the perfect kitchen water place for both the style and lifestyle of your customers.

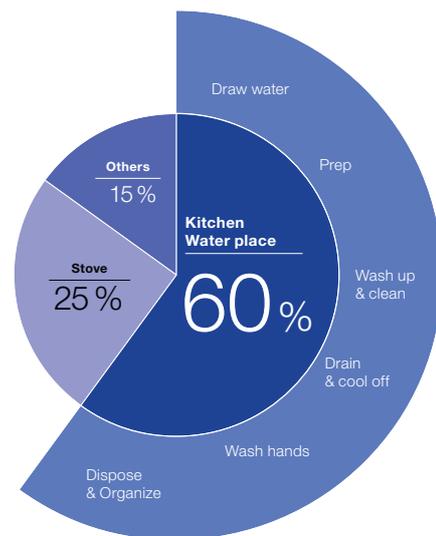

Understanding the space

The next critical point is defining the available room. Detailed measurements and an understanding of access points for water, drainage and power supply are crucial points.

Every kitchen has three areas: the water place, the cooking area (oven and hob) and storage (cabinets and refrigerator). Together they form the work triangle. When defining these three spaces, try to make the distance between them as short as possible to optimise workflow and increase safety.

The key role of the water place

The busiest area in the kitchen is the water place, where we spend over 60% of our kitchen time. Although usage varies, we all generally view the water place as having certain important roles: as the clean-barrier to eliminate dirt and bacteria from food ingredients and kitchenware, the hand-washing station, the drink area (either fresh water or to be boiled e.g. for tea), the clean source of cooking water and as a disposal area for food waste and liquids.

Know your options

Familiarity with the available options is the key in choosing a BLANCO UNIT that will create the ideal water place for individual consumers.

Our high-quality mixer taps are all safe, easy to use and durable. But they can do even more – you can offer complete drinking systems for filtered cold, boiling or sparkling water directly from the spout. Or a semi-pro tap that easily reaches all corners of the sink, or a powerful spray with two different spray patterns. We even have taps for installation in front of a window.

There are strong trends in kitchen design for sinks and bowls, but the decision should be made based on how the water area will be used. Single bowls are great to provide greater worktop area, while double bowls help to separate tasks. Drainers can be a great feature too and can be used as a fixed element or as an accessory, for occasional use. With so many great options, it helps to take a few minutes to consider the priorities of the user, and how they will use the space.

Maximize the impact of the water place

The expert combination of a BLANCO mixer tap and sink has benefits that last a kitchen lifetime. But making the most of this area also means organising the no-go area under the sink. This in-cabinet space has great potential for organisation, keeping cleaning products out of sight but close by and space for separating waste. Having an integrated waste system below the sink eliminates walking through the kitchen with dirty hands and waste, preventing potential spills. It also means having a clean, flexible solution right where it's needed. So after disposing of food cuttings, you just wash your hands and keep on working. So easy!

Unique and individual

The final step in creating a perfect BLANCO UNIT is finding the right accessories that support the way your customer will use the kitchen. Maybe a fixed soap dispenser, a strong cutting board that can be placed over the bowl, perhaps a grid or rails that create an extra level in the bowl for multi-tasking. The accessories help to customize the UNIT to meet specific needs. And if needs should change in the future, new BLANCO accessories can be added to meet them.

Let's get started

It's easy to find the right BLANCO UNIT. As a starting point, we recommend finding inspiration for your UNIT on the following pages. They contain a curated selection of products that seamlessly combine to create great water places for different needs. Plan a UNIT from our suggestions, customise them to fit your customers' requirements or select the ideal sink or bowl, the perfect tap and integrated organisation. Choose from a range of colours, finishes, installation types and sizes. Add ingenious accessories and create a UNIT that becomes a stunning, practical kitchen water place that turns daily kitchen chores into joyful moments.

Turn the page to find our UNIT Inspirations.

UNIT Inspirations

NEW

- This UNIT elegantly fulfils the demands of a home chef.
- A solid, stainless steel mixer tap with a high arc and a pull-out double-jet spray reaches every corner of the sink and is ready to take on both difficult and easy tasks.
- The great volume of the bowl and its surrounding ledge provides abundant workspace and protects the worktop.
- The interior cabinet organisation system with waste separation offers practical tidiness, and keeps all of your clean utensils within reach, but out of sight.

UNIT Inspirations

NEW

- This UNIT supports the hobby chef's daily demands.
- A semi-professional mixer tap with a high arc, magnetic holder and a double-jet spray brings water to every corner of the sink and is ready to take on both difficult and easy tasks.
- The combination of a big bowl and a practical drainer adds functionality to this kitchen area, while simultaneously making preparation in many stages seem very easy.
- The interior cabinet organisation system with waste separation offers practical tidiness and keeps all of your clean utensils within reach, but out of sight.

UNIT Inspirations

- This UNIT is easy to use and adaptable, maximising the workspace in a standard cabinet size.
- The mixer tap and bowl interact to provide an extended working space with water reaching in and around the bowl area.
- The interior cabinet organisation system below the sink grants effortless tidiness and easy waste separation, while keeping cleaning products at reach, but out of sight.
- A wide selection of accessories helps to customise this unit. Add a cutting board that can slide over the bowl for improved ergonomics or a floating grid that can be placed in the bowl to create an extra working space. You can add a personal touch to your UNIT with the right accessory.

BEAUTIFUL. STRONG. CLEAN.

SILGRANIT® kitchen sinks and bowls.

Bowls
SILGRANIT

Silgranit sinks are adored around the world for their exclusive styles and designer colour palette.

The kitchen has become a central point in our homes and a reflection of our lifestyles. With a wide range of styles from proven classics to exclusive award-winning designs, available in a broad selection of configurations and sizes, you can find the right Silgranit sink or bowl to create your customer's dream kitchen.

Thanks to the combination of beautiful design and an impressively resilient, easy-care surface, a Silgranit sink is the ultimate choice for long-lasting kitchen bliss. A Silgranit sink is highly resistant, easily dealing with domestic use including cutlery scratches, de-frosting food, boiling water and even hot pans and trays.

Silgranit is the clean hero in your kitchen. Its surface is food-safe and repels water, making it easy to keep spotless. What's more, tests* confirm that our patented Hygiene+Plus formula reduces the growth of relevant kitchen bacteria by an average of 98%. Set your heart on a beautiful Silgranit sink to make kitchen life easier everyday.

Regular internal quality checks in the production of our Silgranit sinks and bowls confirm the high standards that we set ourselves, and ensure you products you can rely on.

* Tests carried out with bacterial stems ATCC 8739 and ATCC 6538 by an independent laboratory on behalf of BLANCO, 2011.

BEAUTIFUL COLOURS.

Bowls
SILGRANIT

Discover SILGRANIT®'s beautiful colour palette.

Silgranit's beautiful, smooth surface is available in a range of design-oriented colours that won't fade. Colour is such an important part of our lives, especially within our homes. It is a fundamental aspect of interior design, and we use colour as a form of creative expression. It has the power to uplift, energise, soothe and awaken.

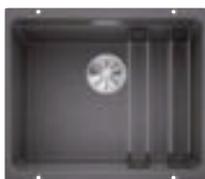

Be inspired and create adorable kitchens with a spectrum of Silgranit shades, available in our bowls, sinks and mixer taps portfolio.

Inspired by modern architecture, BLANCO offers selected sinks and bowls in an on-trend concrete look. The lively interplay between matte and satin matte areas and individual colour gradients makes every concrete-style sink a unique piece.

concrete-style

BLANCO BOWL RANGE.

Myriad designs, materials and installation options.

Bowls
SILGRANIT

BLANCO offers myriad bowls in different sizes, for all standard base cabinet dimensions. As well as single bowls, there are also models with two bowls or a smaller additional bowl. You can choose the bowl design that works best with your style of décor, all the way from classic to linear and modern.

So as to meet all of our customers' desires, BLANCO offers bowls in all three of the standard materials: Stainless steel, Silgranit and Ceramic. Materials and colours can be selected to work with their surroundings, whether that means matching shades or choosing an accent colour. You can also choose from a range of options when it comes to installing the bowl. Many models can be installed using different methods.

The classic option is installation from above. This is suitable for all worktop materials and allows swift and straightforward installation.

Lots of bowls can also be installed with a flushmount method, thus eschewing any troublesome edges.

The bowl has an elegant, flushmount look when installed from above with an IF-flat rim, even into laminate worktops.

Installation from below is very popular for worktops made of natural or artificial stone. Stepless installation creates a harmonious overall look.

NOT JUST A BOWL.

Some of the most admired SILGRANIT® families are bowls.

ETAGON

A space for simple brilliance

Thanks to its two versatile rails, the cleverly designed range of ETAGON kitchen bowls offer three working levels that can be used at the same time. This ensures greater convenience and efficiency, while also providing optimum results.

SUBLINE

The designer line of bowls

The extensive SUBLINE family of bowls, brings all possibilities in undermount and flush mount for a designer take on minimalistic or Scandinavian style. Small bowls that can be combined as undermounts or you can choose double bowls with low-divide or cascade. Extended design opportunities in a line that plays its master role in combination with the worktop.

PLEON

Large volume, elegant options for inset bowls

Featuring straight lines and plenty of space, the PLEON series has a depth of 220 millimetres and fits perfectly into a vast array of kitchens. A range of optional accessories have been designed for the PLEON family to assist you with your cooking preparations at the sink.

NAYA

The functional kitchen bowl with the big heart

The NAYA kitchen bowls provide space for family meal prep while fitting bulky cookware. Sleek forms make them easy to clean and create an inviting atmosphere in nearly any style or size kitchen. Choose any colour of velvety robust Silgranit, adding matching mixer taps, practical accessories and an in-cabinet waste organisation system to customise your BLANCO UNIT. NAYA creates stress-free space at the heart of your kitchen.

BLANCO VINTERA XL 9-UF SILGRANIT

- Striking sink with farmhouse flair, ideal for modern kitchen designs
- Extra-large bowl provides plenty of room
- Perfect fit: right-angled apron front fits the width of a 90 cm cabinet

Technical Drawing

Bowl depth 190 mm

Installing a kitchen mixer tap, drain remote control or soap dispenser in laminate worktops requires a flexible sealing tape, item no. 120 055.

Note: for worktop thicknesses of 15 mm and over, a space for the overflow must be cut out on the underside.
Please note the cut-out information for the respective installation method.

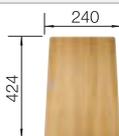

Model-related detailed dimensions and drawings can be found with the cut-out information online at www.blanco.com

CLASSIC. TIMELESS. BEAUTIFUL.

Stainless steel sinks and bowls.

Bowls
stainless steel

Stainless steel sinks are timeless and elegant, and often the preferred material of kitchen planners. Besides its ideal properties for preparing food and cleaning dishes, stainless steel also offers plenty of design options and product features, like rounded or tight corners, different bowl depths and sink shapes. A wide range of styles opens up endless possibilities to find the right sink for every kitchen, while the neutral tones of stainless steel blend harmoniously with any kitchen environment.

Stainless steel is a hygiene expert, its surface is smooth, tough and pore-free, making it exceptionally easy to clean. The premium quality of the BLANCO stainless steel makes our sinks safe for food use. It also has a natural resistance to common household acids and stains, e. g. coffee, tea, fruits, and vegetables. Making food preparation on its surface, carefree.

Stainless steel is robust. Dishes or vases that drop onto it will not break easily. Putting hot cookware or pouring off boiling water into the sink won't affect the heat-resistant surface. With minimum care needed, stainless steel sinks will retain their brilliance and perform perfectly for decades.

BLANCO SOLIS.

Attractive stainless steel bowls with sophisticated equipment.

Bowls
stainless steel

BLANCO SOLIS stainless steel bowls stand out for a harmonious mix of appealing design and topquality equipment. The modern design, featuring a combination of a larger corner radii with a tighter base radii, the covered C-overflow, and the elegant InFino drain system, all enhance the contemporary vibe of this range of bowls.

SOLIS bowls also win points for their functional features. Combined with the large base of the bowl, the convenient bowl depth offers plenty of room, making preparing food and cleaning that bit easier at the kitchen water hub. With its balanced interplay of functional and visual elements, SOLIS offers great value for money and promises even more choice when it comes to planning. The huge SOLIS range comes in the six most popular bowl sizes and also a bowl combination and can be planned in as an undermount version or with an elegant IF flat rim, with or without an integrated tap ledge. The IF or undermount versions can also be equipped with the customer's chosen drain remote control, if desired.

SOLIS undermount bowls can be flexibly combined with a soap dispenser and pop-up.

The small base radii of the bowls allow the base surface to be used to the full.

Models with a tap ledge come with the intuitive PushControl drain remote control.

BRILLIANT: THE MULTI-LEVEL BOWL.

BLANCO ETAGON.

Bowls
stainless steel

One bowl, two rails, three functional levels. This new functional level concept from BLANCO transforms a bowl into a fully-fledged sink. The integrated step allows the bowl to be used in parallel on 3 levels: in the bowl itself, on the bowl step and on the edge, thanks to carefully designed accessories and clever details.

As such, BLANCO ETAGON combines this functionality with a top-class aesthetic. The bowl's elegant radius design and high-quality equipment, with the hidden C-overflow and the innovative InFino drain system takes modern kitchens to the next level.

The rails transform your ETAGON sink into a work station. The truly remarkable thing is the system concept combining the bowl geometry and the ETAGON rails. Made of high-quality stainless steel, they support the intermediate level, where they have multiple uses: you can put things down or fill them up with ease, also as a support for cleaning trays in the bowl or as the perfect place to dry and store items such as pot lids, drinking bottles or dishwashing utensils. The heatresistant ETAGON rails can also be used as a trivet on your worktop.

BLANCO ETAGON bowls in stainless steel are available in three installation options and in two sizes.

For perfect kitchen prep on multiple levels.

Also available as the BLANCO ETAGON 500-IF for installation from above or flushmount installation.

ETAGON comes in different sizes and versions, including the tried and tested Silgranit®.

This practical model also comes in ceramic.

ZEROXLINE.

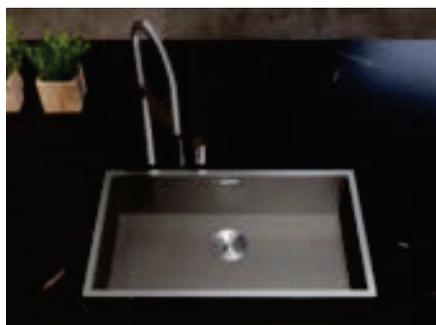

Striking rectangular bowl design in stainless steel.

Bowls
stainless steel

The BLANCO ZEROX range of bowls features a zero-radius design and is defined by its minimalist, linear look. For those who love minimalist style, ZEROX bowls come in a range of models and fit perfectly into pared-back interiors.

The large ZEROX bowl range is available in three different stainless steel surfaces: in high-grade brushed satin polish, in innovative and resistant Durinox, and in elegant, velvety lustrous Dark Steel. The Dark Steel surface fits harmoniously into modern kitchen settings that feature dark colours.

The pure, uncoated Dark Steel has a matt metallic sheen and blends in perfectly with dark shades.

The velvety matt ZEROX Durinox bowl feels pleasantly warm to the touch and is scratch-resistant.

ZEROX undermount bowls in top-quality stainless steel satin polish are timeless beautiful.

BLANCO CRONOS XL

Stainless steel

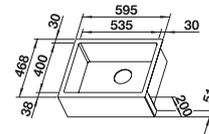

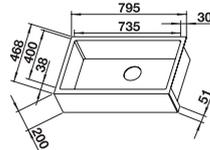

- Exclusive stainless steel farmhouse-style sink in a minimalist design
- Eye-catching styling with the characteristic apron front in stainless steel with a satin matt finish
- Large integrated BLANCO CLARON XL single bowl
- InFino drain system – elegantly integrated and easy-care
- For undermount installation, installation from above or flushmount installation

LOVELY MIX OF NATURE AND DESIGN.

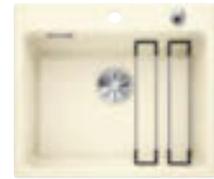

BLANCO Ceramic bowls.

The BLANCO Ceramic bowls create a pleasant, homely atmosphere. They appeal for their flowing lines and glazed surfaces.

BLANCO Ceramic blends happily both in traditional and modern kitchens. In crystal white or magnolia glossy tones, the ceramic bowls bring a friendly welcoming look to the country style kitchen. For modern designs or a modern-take on farmhouse, the ceramic bowls in black and basalt hues make a statement.

crystal white glossy

magnolia glossy

basalt

black

The special properties of BLANCO Ceramic PuraPlus:

- Unbeatably easy to look after
- Resistant to impacts and blows in domestic use
- Resistant to scratching and stains
- Full-tone colours, matt or gloss
- Manufactured with traditional methods
- Heat resistant in domestic use
- Suitable for food use and hygienic
- Resistant to food acids
- Resistant to light – even direct sunlight

Regular internal quality checks confirm the high standards that we set ourselves, and ensure you products you can rely on.

DEVOTED TO CERAMIC.

The most beloved Ceramic families.

SUBLINE

The designer line of bowls

The SUBLINE family of bowls, includes Ceramic bowls for undermount installation. Elegant bowls for extended design opportunities where the worktop takes the main role. The SUBLINE Ceramic bowls are available in all four Ceramic colours.

PALONA

A modern classic with extras

PALONA, our purist classic in Ceramic, comprises a spacious XL bowl with a continuous tap ledge, giving you plenty of room even when space is at a premium. Thanks to its flat rim, PALONA can be integrated perfectly into any style of kitchen. PALONA is available in all four Ceramic colours.

BLANCO PALONA 6

Ceramic PuraPlus

- Puristic design for contemporary kitchen worlds
- Low-profile rim design
- Spacious, deep single bowl with continuous tap ledge
- Chopping board made of solid beech with two stable positioning options for flexible working, optional available
- Elegant and hygienic: the covered C-overflow
- For the 60-cm base cabinet
- InFino drain system – gracefully integrated and easy-care

BEAUTIFUL. STRONG. CLEAN.

SILGRANIT® kitchen sinks and bowls.

Silgranit sinks are adored around the world for their exclusive styles and designer colour palette.

The kitchen has become a central point in our homes and a reflection of our lifestyles. With a wide range of styles from proven classics to exclusive award-winning designs, available in a broad selection of configurations and sizes, you can find the right Silgranit sink or bowl to create your customer's dream kitchen.

SILGRANIT Sinks

Thanks to the combination of beautiful design and an impressively resilient, easy-care surface, a Silgranit sink is the ultimate choice for long-lasting kitchen bliss. A Silgranit sink is highly resistant, easily dealing with domestic use including cutlery scratches, de-frosting food, boiling water and even hot pans and trays.

Silgranit is the clean hero in your kitchen. Its surface is food-safe and repels water, making it easy to keep spotless. What's more, tests* confirm that our patented Hygiene+Plus formula reduces the growth of relevant kitchen bacteria by an average of 98%. Set your heart on a beautiful Silgranit sink to make kitchen life easier everyday.

Regular internal quality checks in the production of our Silgranit sinks and bowls confirm the high standards that we set ourselves, and ensure you products you can rely on.

* Tests carried out with bacterial stems ATCC 8739 and ATCC 6538 by an independent laboratory on behalf of BLANCO, 2011.

SILGRANIT Sinks

Discover SILGRANIT®'s beautiful colour palette.

Silgranit's beautiful, smooth surface is available in a range of design-oriented non-fading colours. Colour is such an important part of our lives, especially within our homes. It is a fundamental aspect of interior design, and we use colour as a form of creative expression. It has the power to uplift, energize, soothe and awaken.

Get inspired and create adorable kitchens with a spectrum of Silgranit shades available in our bowls, sinks and mixer taps portfolio.

Inspired by modern architecture, BLANCO offers selected sinks and bowls in an on-trend concrete look. The lively interplay between matte and satin matte areas and individual colour gradients makes every concrete-style sink a unique piece.

concrete-style

IMPRESSIVELY ELEGANT. REMARKABLY INTENSE.

Sinks in Silgranit® black, defining kitchen design.

For aficionados of top-end design, personally planning a kitchen with black elements represents the ultimate expression of self-assured individuality or elegant understatement. Silgranit black from BLANCO is a designer colour with a captivating depth that opens up a vast array of design options for creating high-contrast kitchens or a timelessly elegant special touch.

Silgranit black creates two breathtaking effects: it sets strong accents in kitchens with pale worktops and furniture, while honing the sense of restrained luxury in completely black kitchens. Thanks to its restful depth, the new black from BLANCO leaves plenty of scope for creating a unique overall impression by combining it with chairs, tables, vases, lighting, pictures and more. Colourful accessories also look particularly striking. While Silgranit anthracite chimes with the vivid surface of granite worktops to perfection, Silgranit black unites all of the interior elements with a sense of calm, profound elegance.

Extensive portfolio in Silgranit black.

Silgranit black enhances almost any style of interior design, as all of the Silgranit sinks and bowls are available in utterly elegant black, for effortlessly composed design. A selected range of mixer taps in Silgranit-Look black adds to the planning options with essential design elements that create a flawless interplay of shades, providing expressive accents or a captivating overall impression.

Mix and Match in black matt.

Black accents are particularly popular in modern kitchens, that's why we've expanded our range of products in black matt: the optional set, comprising the C-overflow and InFino drain system in on-trend black, rounds out the range of renowned mixer taps and soap dispensers in this finishing. This can be used to create striking contrasts or achieve an even, colour-matched look, depending on the customer's wishes. The most-used space in the kitchen is transformed into a stunning spot. Complete with a top-quality, high-performance coating, the functional elements are scratch-resistant and suitable for everyday use.

ABOUT A KITCHEN SINK.

A few of the most admired SILGRANIT® sink families.

AXIA III

Simple multi-axis ergonomics

To fulfil the highest requirements in everyday kitchen life, AXIA sinks provide plenty of comfort and help make kitchen tasks flow easily. On the AXIA III 6 S sink the chopping board slides freely above the drainer and the bowl area, and, when combined with the diagonally hung multifunctional colander, creates a comfortable food preparation station.

ZENAR

Timeless aesthetics with modern functions

The ZENAR sinks feature a large bowl, which accommodates even cumbersome dishes or baking trays without any problem. The smooth transition to the drainer also provides convenience and an appealing look. Thanks to its surrounding flat rim and continuous tap ledge, ZENAR's timeless elegance comes into its own in any kitchen.

The ZENAR SteamerPlus models provide a great solution for a smooth workflow of food preparation for steam cooking.

ELON

Lots of space in a compact design

The ELON Kitchen sink is impressive for its unusual look and large capacity, despite its compact dimensions. As such, it is ideal for small kitchens. Experience the modern, wave-shaped and carefully considered design of the ELON family.

METRA

Clean lines and convenience

With its straight-lined design, the METRA sink range looks perfect with all sorts of kitchen styles. The flat rim fits perfectly into any setting. What's more, the spacious METRA sinks offer plenty of space thanks to their large, deep bowls and practical draining area.

BLANCO ADON XL 6 S

SILGRANIT

- Eye-catching, cubic design
- Raised all-round frame
- Symmetrical construction with tap ledge positioned in the middle
- More room behind the sink thanks to the reduced installation dimension
- High-quality features with drain remote control and InFino drain system – elegantly integrated and extremely easy-care
- Can be installed reversibly

CLASSIC. TIMELESS. BEAUTIFUL.

Stainless steel sinks and bowls.

Stainless steel sinks are timeless and elegant, and often the preferred material of kitchen planners. Besides its ideal properties for preparing food and cleaning dishes, stainless steel also offers plenty of design options and product features, like rounded or tight corners, different bowl depths and sink shapes. A wide range of styles opens up endless possibilities to find the right sink for every kitchen, while the neutral tones of stainless steel blend harmoniously with any kitchen environment.

Stainless Steel
Sinks

Stainless steel is a hygiene expert, its surface is smooth, tough and pore-free, making it exceptionally easy to clean. The premium quality of the BLANCO stainless steel makes our sinks safe for food use. It also has a natural resistance to common household acids and stains, e. g. coffee, tea, fruits, and vegetables. Making food preparation on its surface, carefree.

Stainless steel is robust. Dishes or vases that drop onto it will not break easily. Putting hot cookware or pouring off boiling water into the sink won't affect the heat-resistant surface. With minimum care needed, stainless steel sinks will retain their brilliance and perform perfectly for decades.

CLARONLINE.

Elegantly pure stainless steel sink and bowl design.

Stainless Steel
Sinks

With its elegantly pure design, BLANCO CLARON combines striking visual impact and functionality. The stylish design of the bowls and sinks, featuring concise corner radii of only 10 mm, looks wonderfully elegant and thus blends harmoniously into modern, pared-back living environments.

This large range of sinks and bowls is available with Durinox and stainless steel satin polish surfaces, as well as in a variety of sizes, with or without a tap ledge. The models are suitable for undermount, flushmount or flat installation from above.

Generously-sized CLARON bowl with flat IF rim, installed from above.

CLARON Durinox bowl with integrated tap ledge and PushControl drain remote control.

CLARON undermount bowl, available in a variety of sizes and two surface finishes.

TECHNICAL INFORMATION.

Bowls and sinks with or without tap ledge

550 series
8 S models
Steamer Plus
BLANCO CRONOS

BLANCO CRONOS XL 6-IF + 6-U / 8-IF + 8-U
BLANCO CLARON 550-IF/A, 550-IF, 550-U
BLANCO CLARON XL 60-IF / -U Steamer Plus
BLANCO CLARON 8 S-IF
BLANCO ZEROX 550-IF/A
BLANCO ZEROX 550-IF
BLANCO ZEROX 550-U

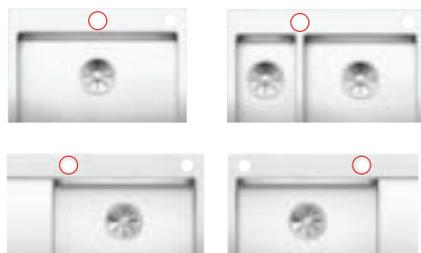

If fitting a BLANCO CRONOS XL 6, CLARON XL 60 SteamerPlus or models of the 550 series in a 60-cm wide base cabinet, the side panels will have to be cut out.
If fitting 8 S models or BLANCO CRONOS in an 80-cm wide base cabinet, the side panels will have to be cut out.

Worktop thickness
on IF models and sinks

BLANCO FLOW-IF
BLANCO CLARON-IF/A
BLANCO ZEROX-IF/A

IF models with an integrated tap ledge can only be used with worktops of 30 mm thickness or more.

Taps mounted
on IF models with tap ledge

On all models with an integrated tap ledge, the mixer tap must be positioned as shown here:

- Single and double bowls: in the left-hand tap hole
- Sink main basin on the right: in the left-hand tap hole
- Sink main bowl on the left: in the right-hand tap hole

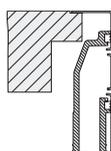

Taps mounted
behind the overflow

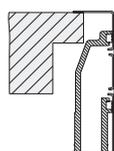

Warning! The following products cannot be mounted behind the overflow:

- Mixer tap BLANCO ELOSCOPE-F II
- BLANCO soap dispenser, e.g.:
 - BLANCO PIONA
 - BLANCO TORRE
 - BLANCO LATO

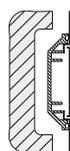

Cut-out on IF models
with C-overflow

View of flushmount installation

View of installation from above

View of cut-out from above

If fitting the models BLANCO CLARON-IF and ZEROX-IF with C-overflow, the worktop will have to be cut out accordingly. You will find detailed dimensions and drawings for the various models with the cut-out details on the Internet at www.blanco.com

You will find the cutting-out details for every installation method in our Internet download area.

AESTHETICS AND FUNCTION IN ALL THEIR FACETS.

BLANCO kitchen mixer taps.

We strive for excellence, particularly when it comes to coordinated tap, sink and waste system. For a seamless water place in the kitchen, both in terms of function and aesthetics, as well as installation and service.

BLANCO offers a wide range of premium mixer taps – for a wide variety of requirements and interior styles. Excellent quality, appealing visual appearance, smart technology and easy operation paired with a choice of sizes and colours make it easy to find the right mixer tap.

BLANCO is highly aware of their responsibility for the most valuable life source – drinking water. BLANCO mixer taps are extensively tested for technology and hygiene, offering one of the highest standards in quality. All water-conducting components are tested and certified.

All components used are made to the latest material developments and technologies, and from the very highest quality materials thus providing maximum safety in terms of health and hygiene. Durability and stability of the components are at the core of our product engineering.

FILTER MIXER TAPS.

Hygiene safety and functionality.

Clean water is a part of quality of life. BLANCO's filter mixer taps make an important contribution to this – in combination with a standard filter system that is installed in the base unit. With BLANCO's filter mixer taps, filtered and non-filtered water are controlled by separate control levers. Depending on the particular model, 3-way mixer taps are available with a separate or integrated spout for standard and filtered water. The water qualities run separately.

Mixer Taps,
Soap Dispensers

BLANCO TRIMA: The modern filter mixer tap.

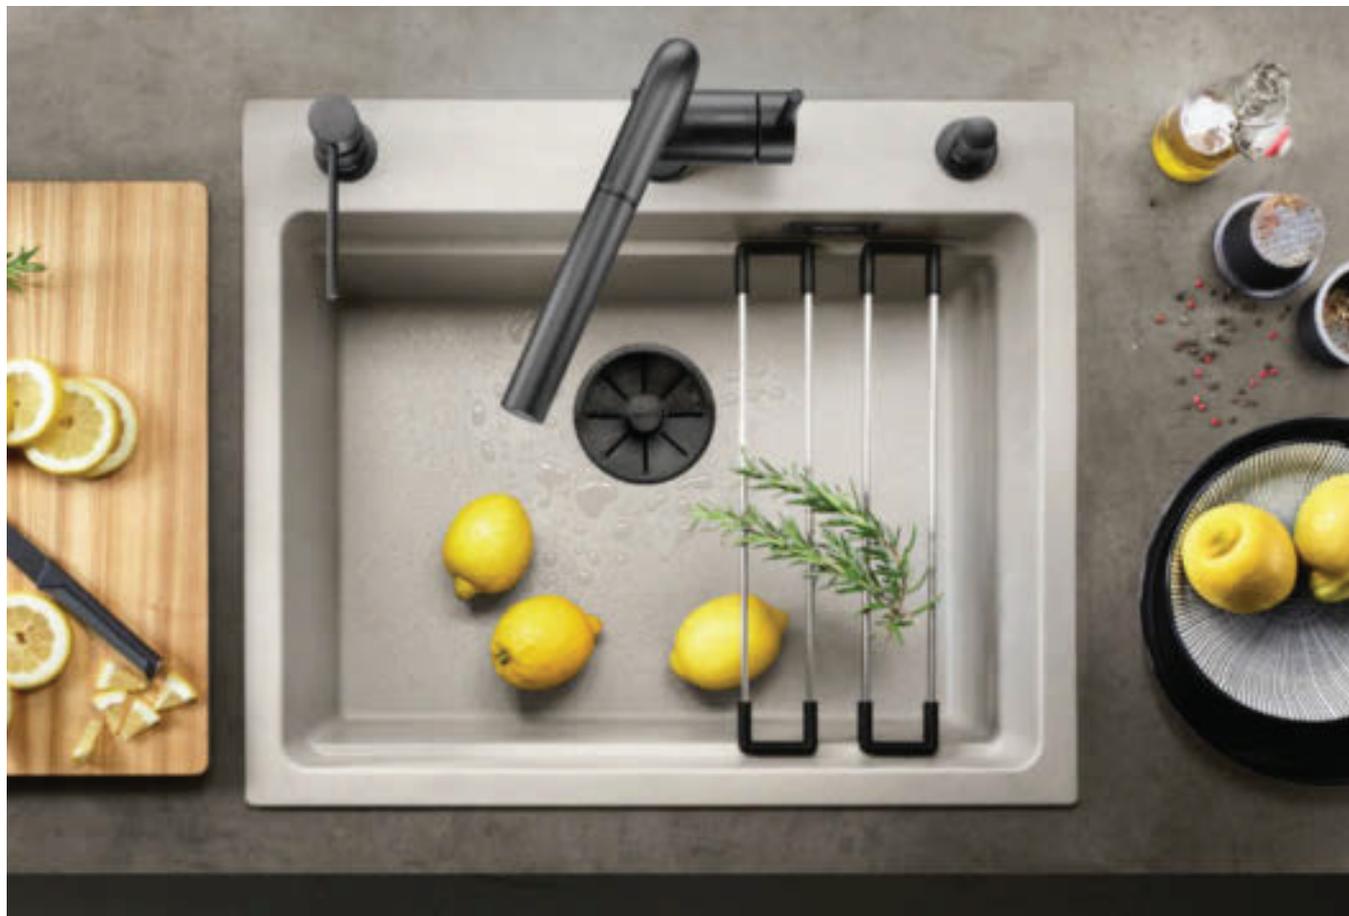

BLANCO FONTAS-S II: Convenient filter mixer tap in L-spout shape – available in metallic and coloured finishes.

BLANCO SORA: Traditional looks, modern filter function.

HARMONY OF CONTRASTS.

Black matt.

Mixer taps in black matt set particularly striking accents on grey and concrete-style sinks. Along with the semi-professional CATRIS-S Flexo and its full black matt look, this surface finish grants a timeless beauty that is also available in various mixer tap models, delivering answers for a wide range of customer requirements.

A special surface: completely matt black, down to the smallest detail for an ideal contrast with light sinks or stainless steel bowls with tap ledge.

Accessories are also available in matt black such as the cylindrical soap dispenser LATO.

Remote pop-up control, overflow and basket strainer – all these available in a black matt finish perfectly complement the mixer tap for a seamless design.

QUALITY DOWN TO THE LAST DETAIL.

BLANCO kitchen mixer taps.

BLANCO kitchen mixer taps are at the cutting edge of technology and are subject to the very strictest quality controls. However, should any problems arise, the BLANCO Service team is at your disposal.

Upgrade – water flow modes

Numerous mixer tap models such as LINUS, LINUS-S, CANDOR or BLANCO CULINA-S Mini can be easily upgraded with the aerator set, which includes a clear spray and aerated jet regulator for high-pressure mixer taps. Please check the compatibility with your customer service before purchasing the BLANCO aerator set.

Water flow modes at a glance	
Clear spray	Aerated spray
• crystal clear	• aerated
• quiet	• soft
• splatter-free	• strong

Aerator set
with clear spray and aerated spray for high-pressure mixer taps

Item-No. 521 746

Installation and care – secure installation and perfect maintenance

- It is recommended that the mixer tap is installed by a licensed professional.
- Do not clean kitchen mixer tap surfaces with caustic or abrasive cleaning aids. We recommend to use BLANCO DailyClean+ Art.Nr. 526305.
- If the water flow becomes weaker, rinse out the jet regulator.

To protect the mixer tap against dirt and damage (leaks, reduced water flow), installing a dirt strainer (included as standard) between the angle valve and connecting hose is essential.

Dirt filter strainer

- Modern mixer tap for in front of the window
- User-friendly fold-down mechanism so the mixer tap folds down to one side
- Buffered fold-down process and secure fit
- Optimum installed height allows the spout to fit right inside the bowl
- Control lever on side, choice of left or right side
- High spout for easy filling of pans and vases
- Minimum clearance between sink and window sash 6.5 cm

Solid spout

Lever left

Window solution

Metallic surface			
	chrome	High Pressure	521 546

Scope of supply

- 360° swivel spout for greater reach and rotates at the front area
- Ø 35mm tap hole required
- With ceramic disk cartridge
- Flexible connection pipes with a length of 500 mm and 3/8" nut for particularly easy and secure installation
- Patented jet regulator for markedly reduced scaling
- Stabilising plate to increase the stability of the tap when fitted in stainless steel sinks
- LGA approved
- DVGW approved

COLLECTING. SEPARATING. CREATING ORDER.

BLANCO waste and organisation systems.

The sink base cabinet plays a major role in kitchen planning. It is the place where waste is collected, cleaning products are stored and which is often limited in space by the components of a water system, such as a boiler or filter. Here in particular it is important to have a waste or organisation system, which makes optimal use of the remaining space and can be adapted to individual needs.

BLANCO offers the right system for almost all cabinet widths and pull-out types. If the space in the base cabinet is limited, our special solutions such as SELECT II Soda or SELECT II Compact are used. FLEXON II Low offers flexible solutions for base cabinets with divided drawers, e.g. the installation of the waste or organisation system directly under the worktop.

With their attractive and functional design and high product quality, the BLANCO waste and organisation systems enrich every kitchen.

BLANCO waste systems disappear elegantly in the sink base cabinet. It does not matter whether the cabinet has hinged doors, pull-out fronts or drawers and how wide it is. We always have a suitable solution.

Clever accessories are used wherever there is a need. For example the MOVEX foot control when you have both hands full or the practical bin lids to avoid unpleasant smell in the base cabinet.

COLLECTING. SEPARATING. CREATING ORDER.

BLANCO FLEXON II – getting the most out of a sink cabinet space.

The BLANCO FLEXON II product range offers waste bins with a high-quality frame and is easy to install in all common pull-out cabinets. Thanks to its wide selection of models with waste bins in different sizes, FLEXON II can be customised to almost every kitchen planning. Whether your customer has a 30 or 90 cm cabinet width, single or divided drawers, the waste management system can easily be retrofitted in existing kitchen drawers. The frame is simply positioned in the drawer, making the bins easily accessible and extremely easy to clean.

But FLEXON II offers a lot more: the Low version can be installed directly under the worktop. This ensures ergonomic workflows. And FLEXON II cannot only be used to collect and separate waste, the system is also perfect for storing e.g. cleaning utensils.

FLEXON II Low makes the most of cabinet space by fitting waste and recyclables directly below the worktop or sink.

Whenever kitchen cabinets with divided drawers are planned, FLEXON II Low is the perfect solution for waste separation or storage of e.g. cleaning utensils.

BLANCO FLEXON II is ideal for existing drawers. Installed in a flash, it fits perfect into drawers from 30 to 60 cm width.

BLANCO FWD Max

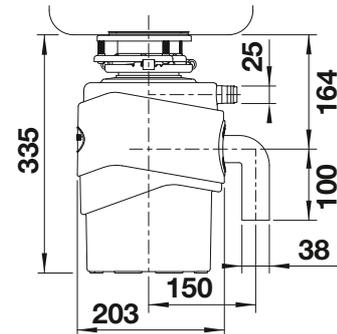

- Premium model for regular disposing of large amounts of food waste in big households
- Optimal interface management for BLANCO sinks and bowls
- High quality and powerful AC induction motor
- Easy to install thanks to 3 bolt installation system

MAKING KITCHEN TASKS EASIER

Matching accessories for the kitchen water place.

A sink can be so much more than the place where dishes and food are cleaned. With our ingenious accessories, it can be transformed into a multifunctional workplace in just a few simple steps. Streamlined work flows eliminate the need for unnecessary actions, making preparing food a breeze. This option offers a very practical additional benefit, especially in small kitchens.

A practical accessory for every sink is a colander. When hung in the bowl, it can be used to temporarily store prepared or cleaned food or cleaned dishes and cutlery.

A cutting board increases the work surface and can be flexibly positioned and moved over the sink.

The floating grid can be used to create an additional functional level. Ideal e.g. for draining crockery or washing food.

PERFECT CARE MADE EASY.

BLANCO CARE cleaning and care products.

BLANCO sink and mixer tap surfaces are resistant and attractive. To ensure that they stay that way for as long as possible, they should be cleaned and cared for on a regular basis. BLANCO CARE cleaning and care products allow you to achieve this in a lasting and sustainable way. The products are easy to use and have been ideally formulated for BLANCO surfaces.

Achieve an optimal result in just three steps:

- daily cleaning with standard household cleaning products, e. g. washing-up liquid and a microfibre cloth
- regular cleaning with DailyClean+
- deep-cleaning with special cleaners designed for specific materials, from the DeepClean range.

BLANCO CARE cleaning and care products have formulas optimally suited to BLANCO sink and mixer tap materials.

All products are specially developed for BLANCO materials and undergo intensive testing by our Research and Development department.

The professional limescale remover DailyClean+ gently cleans all sink and mixer tap surfaces.

DeepClean Stainless Steel is used when blemishes or minor scratches on stainless steel sinks require more intensive care.

DeepClean Ceramic gets rid of grease and limescale, removes dirt and metal abrasion, and polishes and preserves the material.

BLANCO CARE. Cleaning and care products

DailyClean+

- Professional limescale remover for all sink and mixertap surfaces
- Gentle – suitable for everyday use
- Do not use on surfaces that are sensitive to acid. Follow the manufacturer's care instructions. If in doubt, test it first in an inconspicuous place.

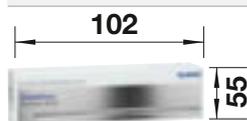

NEW
526305

DeepClean Stainless steel

- For deep cleaning of stainless steel sinks
- To be used if blemishes cannot be removed with everyday care products
- Helps to remove small scratches, extraneous rust and stains
- Allows water to run off, prevents fingermarks and dirt
- Not suitable for the stainless steel surfaces Durinox, Dark Steel, natural finish or linen, or chrome-plated surfaces and kitchen mixer taps

NEW
526306

DeepClean Ceramic

- For deep cleaning of Ceramic sinks
- To be used if blemishes cannot be removed with everyday care products
- Dissolves grease and limescale, and removes blemishes and metal abrasion
- Polishes and preserves
- Also suitable for stainless steel sinks in a natural finish or linen, plus ceramic cooktops

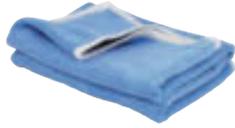

NEW
526308

- Included in the scope of supply for SELECT II Orga

526212

Universal box

- To be positioned in 8 l, 15 l or 19 l bins of BLANCO SELECT II and FLEXON II
- Also ideal for collecting food waste or small items
- Dishwasher safe
- In scope of supply of BLANCO SELECT II Orga

229342

Bin lids for SELECT II and FLEXON II

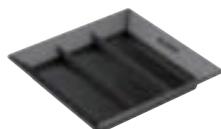

- Lid to cover bin and collect small items
- Design perfectly matched to BLANCO SELECT II and FLEXON II

15 l bin lid included with BLANCO SELECT and FLEXON II 60/3 and 60/4

229338

6 l bin lid included with BLANCO SELECT II and FLEXON II 60/4 versions

231974

8 l bin lid included with BLANCO SELECT II and FLEXON II 30/2, 50/3, XL 60/3 versions (1 bin lid)

231975

Accessories for BLANCO waste systems

AktivBio cover

- Combination of active carbon filter and stainless steel disc significantly reduces the leakage of unpleasant odours out of the organic waste bin

Available for SELECT II and FLEXON II 6 l bins

524219

Available for SELECT II and FLEXON II 8 l bins

524220

Filter for AktivBio covers

- Filter change recommended every 3 months
- Set covers the recommended annual requirement
- Content: 4 pieces

for AktivBio-Cover 6 Liter

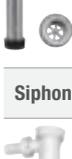

524225

for AktivBio-Cover 8 Liter

524226

FOR ANY REQUIREMENT.

BLANCO installation solutions.

Installation from above

Classic installation from above with a conventional profiled rim.

- Large selection of sinks in stainless steel, SILGRANIT and Ceramic
- Suitable for all worktop materials
- Uncomplicated and quick installation

BLANCO ETAGON 6 Black Edition

Flat rim IF

Elegant and modern look thanks to the almost flushmount appearance.

- Wide product programme of stainless steel sinks with the flat rim IF
- Lay-on installation option is ideal for laminate worktops
- One model, two installation options
 - Installation from above, top mounted (safe and quick mounting)
 - Flushmount installation

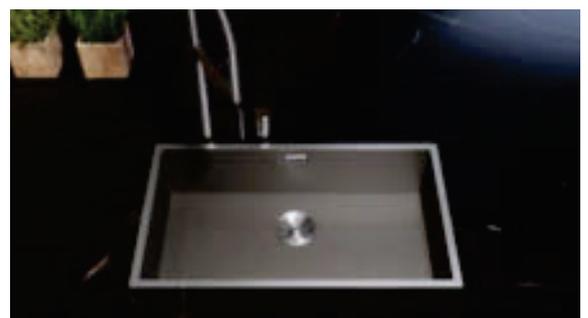

BLANCO LEMIS XL 6 S-IF, stainless steel

Flushmount installation

Visual unity between sink and worktop with no irritating edges – functional and contemporary.

- Wide selection of Silgranit® models with special rim design for flushmount installation
- Recommended for worktops in natural or artificial stone
- Permanent and safe connection of sink and worktop thanks to mechanical supporting elements and the jointing with sealant

BLANCO ZEROX 700-IF Dark Steel

FOR ANY REQUIREMENT.

BLANCO installation solutions.

Flush undermounted installation

Almost smooth installation from below for a modern and elegant look.

- Suitable Silgranit® products are marked with the FU symbol.
- Suitable for laminate worktops
- Extremely long-lasting adhesion using casting resin in a precisely-made worktop cut-out

BLANCO ZENAR XL 6 S-F, Silgranit

Undermount

Smooth, continuous installation of bowls and sinks for a harmonious overall impression.

- In addition to the wide range of special bowls for undermount installation in stainless steel, Silgranit and Ceramic, almost all our inset stainless steel and Silgranit sinks are suitable for undermount installation
- Suitable for worktops in natural or artificial stone, ceramic or glass
- Special supporting elements are used to secure the sink to the underside of the worktop, then it is jointed with sealant

BLANCO ANDANO 450-U, stainless steel

How-to videos with practical tips for the kitchen specialist

How do you install a flushmounted sink?

Do you have any tips for caring for our sinks? How can I make an additional hole in a Silgranit sink?

Find answers to these and other questions in our How-to videos in the Internet.

INSTALLATION EXAMPLES.

BLANCO installation options.

Installation from above

In this process, the sink is placed inside the sink cut-out from above.

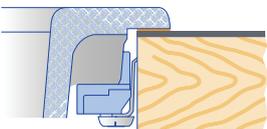

BLANCO stainless steel sinks with a profiled rim are sealed at the works; sinks made of Silgranit® or Ceramic are given a layer of sealant on-site.

Silgranit and stainless steel sinks are secured to the worktop from below using securing elements; Ceramic sinks are simply placed on top of it.

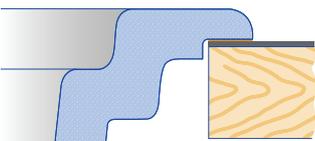

Stainless steel

SILGRANIT®

Ceramic

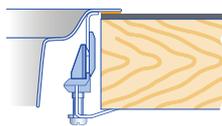

Flat rim IF

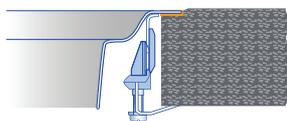

In this process, the sink is placed inside the sink cut-out from above. A layer of sealant is applied under the rim of the sink before installation. The sinks are secured to the underside of the worktop by securing elements.

The flushmount installation of IF sinks correlates to the classic flushmount installation method.

Stainless steel: Installation from above, flat lay-on

Stainless steel: Flushmount installation

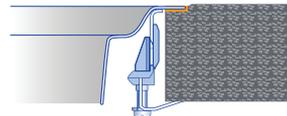

Flushmount installation

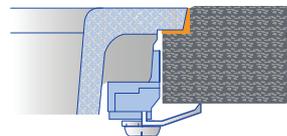

For the flushmount installation method, the sink is fitted from above. We have various special designs with a specific rim for this option.

A groove is worked all around the worktop and filled with sealant. The sink is placed in the sealant and then secured to the worktop from below using supporting elements.

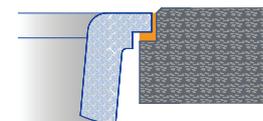

Stainless steel

SILGRANIT®

Ceramic

Cut-out information on all of the installation processes can be found in our internet download.

INSTALLATION EXAMPLES.

BLANCO installation options.

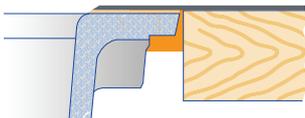

Flush undermount installation

For the flush undermounted installation method, the sink is mounted from below. Almost all BLANCO sinks and bowls are suitable for this option.

With laminate worktops, the carrier material is milled away around the cut-out and all the way to the top layer.

Casting resin adhesive is applied to the rim of the sink, which is then placed on the laminate and the sink is permanently bonded to the worktop from underneath with the adhesive.

SILGRANIT®

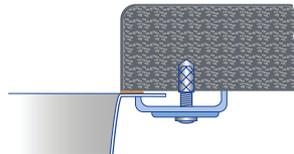

Undermount

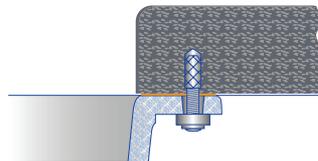

BLANCO's special undermount bowls and almost all BLANCO inset sinks can be fitted from below in non-water drawing worktops in natural stone or composite materials. Thin worktops < 20 mm require an additional lining. A layer of sealant is applied between the rim of the sink and the bottom edge of the worktop.

The sink is attached to the worktop by special supporting elements. Special dowels are used for screw attachments in worktops made of natural stone or composite materials.

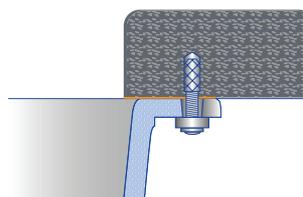

Stainless steel: Undermount bowls

SILGRANIT®: Undermount bowls

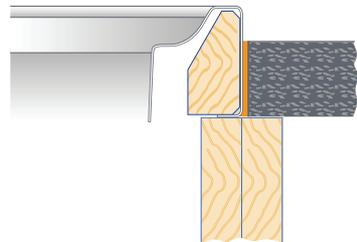

Ceramic: Undermount bowls

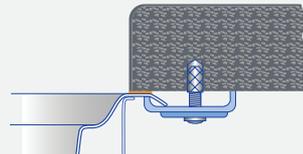

In-between module

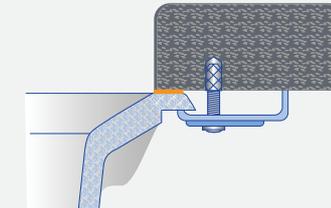

In-between modules replace the worktop over a defined width. The module is placed on the sink cabinet and secured by screws. Depending on the planning situation, the worktop material is placed to the right and left and a layer of sealant applied.

Stainless steel: Undermount sinks

SILGRANIT®: Undermount sinks

Special supporting elements are required for undermounting inset sinks.

Note:

The cabinet widths given for inset sinks apply to installation from above.

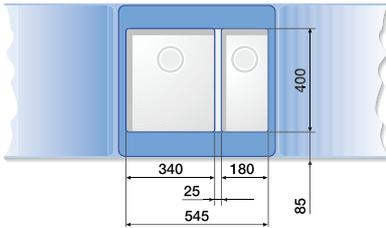

For undermount installation, the cabinet width depends on the dimensions of the sink and the worktop structure.

Advice for installation of BLANCO SUBLINE ceramic:

- Minimum depth of drilled hole 15 mm
- Minimum depth of worktop 25 mm
- Maximum overlap of worktop 5 mm

BLANCO 337

Service

THREE LINES – COUNTLESS POSSIBILITIES.

BLANCO drain remote controls.

The new freedom in choosing the perfect drain remote control. Optional features have never been more exciting. Thanks to the many possibilities that the BLANCO remote control range offers, sink centres can now be designed to be even more individual and unique.

ADVANCED
drain remote controls

BLANCO PushControl is control at the press of a button. Thanks to the intuitive pushing motion, the cleverly thought-out mechanics control the drain easily, precisely and reliably. The 3mm-high flat design integrates itself unobtrusively yet at the same time strikingly into any sink set-up. The high-quality, elegant model enhances any kitchen by adding a valuable, functional touch.

DESIGN
drain remote controls

DESIGN remote controls are the perfect match for mixer taps that are an eye-catching feature in any kitchen. As a unit, developed with superb Design mixer taps, they tell a story of quality, harmony, a feeling for life and a love of special aspirations.

COMFORT
drain remote controls

The COMFORT remote controls are a plus for any sink centre. They provide reliable control of the drain from the outside. That's modern convenience for all work at the sink centre, with a wide range of surface options and two reliable operating concepts: Turn or pull – it's entirely up to you.

A VARIETY OF RETROFIT OPTIONS.

The perfect drain remote control in 2 steps.

Step 1: Define the initial situation and order the appropriate retrofitting kit.

InFino-drain system		Standard-drain system	
			
 InFino drain system WITHOUT remote control	 InFino drain system WITH remote control	WITHOUT remote control Drain valve without Bowden cable	WITH remote control Drain valve with Bowden cable
+		+	
Retrofitting of a remote control Retrofitting set InFino 232 459	No retrofitting set necessary Go straight to Step 2 and select an ADVANCED, DESIGN or COMFORT control element	For retrofitting a remote control for a 3 1/2" spout. The retrofitting set part number depends on the sink type and delivery date. Visit www.blanco.com/sos	No retrofitting set necessary Go straight to Step 2 and select a DESIGN or COMFORT control element
			

Step 2: Choose a control element from the complete range:

ADVANCED remote control (exclusiv for BLANCO InFino)

Please note that the ADVANCED remote controls can only be used in conjunction with InFino drain system.
