Italy No.1 Composite Granite
Sink Brand

Italian Origin 一切源於意大利

The name ELLECI was originated 2 acronym words which will constitute the company mission: "L" as "Lavelli" and "C" as "Composite" : ELLECI.

The famous philosopher - Ralph Waldo Emerson said: "Enthusiasm is the most effective driving force for success. Without enthusiasm, there is no great achievement", which ELLECI has taken it as the company's motto since the beginning of the brand was established. And it has evolved into infinite imagination to create more quality products and services solutions based on ELLECI "Italian Origin".

意大利品牌ELLECI的名稱是源於兩個縮寫詞，意大利文" Lavelli"的"L"以及"Composite"的"C"而來 - "Lavelli"的英文是"Sink"，中文是水槽(鋅盤)的意思；"Composite"意指混合物，所以"ELLECI"除代表公司的品牌名稱外，亦代表了公司的業務及使命。

從品牌成立之始，ELLECI便以著名哲學家拉爾夫·沃爾多·愛默生的說話作為公司發展的座右銘：「熱情是獲得成功最有效的推動力，沒有熱情就沒有任何偉大的成就。」並以此演化成無窮的想像力，創作出更多更美好源自意大利的產品方案及服務。

ELLECI's success is the result of the commitment and dedication of the 6 company values - Design, Expertise, Passion, Care for details, Technology & Made in Italy - making ELLECI become the rare examples with own factory, R&D plus laboratory facilities in one single site. Nowadays, ELLECI becomes the NO.1 granite sink brand in Italy.

ELLECI的成功有賴公司上下對品牌6大核心價值的堅持 - 創意設計、專業技術、激發熱情、著眼細節、科技鑽研及意大利製造，令ELLECI成為現今意大利極少擁有自家廠房、研究發展部門及實驗室的廚房設備品牌。時至今日，ELLECI已為意大利NO.1花崗岩複合水槽的品牌。

Imagination+Creation. Extraordinary ELLECI 想像力與創造力的結合

ELLECI believed that Imagination & Creativity can develop better products & services that are capable of improving everyday experiences of the customers throughout the world. With this believe, ELLECI has developed a unique patented technology and innovative materials that becomes the benchmark of Italian excellence in the sector.

ELLECI深信豐富的想像力與無窮的創造力結合，可以發展出更優質的產品與服務，從而令世上每一位顧客每天的廚房生活體驗變得更美好。憑藉這信念，ELLECI研發了嶄新的專利技術和物料，為意大利業界定立了新基準。

G.P.S System – the production system that makes the difference 專利G.P.S動態鑄模技術

ELLECI revolutionized the technique for manufacturing composite granite sinks, developed and patented the G.P.S system. The unique feature of the system is the dynamic rotation of the moulds, an operation that makes it possible to distribute the mass of the sink more uniformly and compactly, which makes the sink has better resistance to the thermal shocks, impacts and scratches. The surface is more smooth and easier to clean :

1. Impact resistance performance 30% higher than the same kind of products
2. Heat resistance can reach 345°C (normal performance 250°C - 280°C)
3. Thermal shocks performance 30% higher than the same kind of products
4. Cold / hot water cyclic test reach 7,000 times (normal performance around 3,500 times)

ELLECI研發了革命性的G.P.S動態鑄模技術並取得專利，此技術獨特之處在於透過模具動態旋轉，令花崗岩複合水槽的原料能平均分佈在水槽的表面及背面，令水槽在抵抗溫度變化、耐熱、防撞及防刮等方面均較靜態鑄模技術為佳；而且表面更平滑，更易清潔：

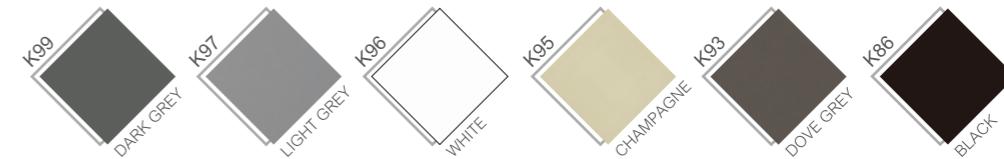

1. 抗撞擊力較其他品牌提高30%
2. 耐熱性提高30%，可抵受高至345°C高溫（一般250°C - 280°C）
3. 抗溫度變化效能較其他品牌提高30%
4. 抗冷 / 熱水循環測試達可達7,000次（一般約3,500次）

Keratek Plus - A New Tactile Experience 嶄新觸感體驗

Continues investments in research for new technologies and materials have enable ELLECI to launch an exclusive innovative material with characteristics never achieved before. Apart from natural granite, Keratek Plus also mixes of 6 innovative acrylic resins and ceramic nanoparticles. With Keratek Plus, colours come alive. 100% HD real colours set a new benchmark for total white & total black. And colours never fade. And its smoother surface improves ease of cleaning, makes the sink 100% stain repellent.

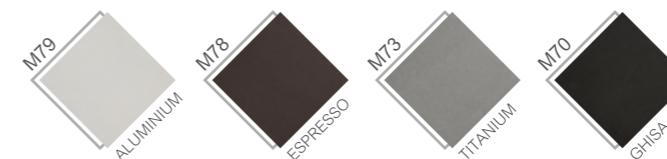

對新科技及物料持續不斷研發投入，令ELLECI創造了一種嶄新獨特的材料 - Keratek Plus。除天然花崗岩石外，Keratek Plus還注入了陶瓷納米夥粒及6種創新的丙烯酸樹脂混合物，令製成的水槽表面更平滑及更堅硬；而且能展現100%高清顏色，為全白色及全黑色帶來新標準。

Metaltek - Granite Metallic Effect 花崗岩石金屬效果

ELLECI Metaltek is also made up of natural granite and acrylic resin and like all sinks produced using G.P.S System... the unique feature is that metal particles have been added to provide a surface with a specific, characteristic finish that is shiny & glossy.

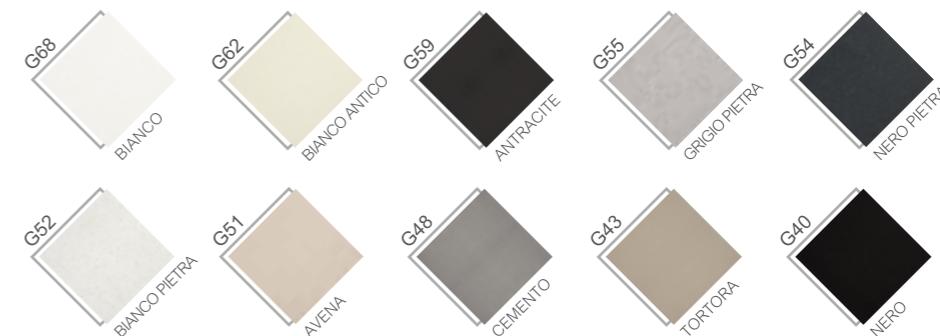

ELLECI的Metaltek同樣是利用天然花崗岩石注入了陶瓷納米夥粒及丙烯酸樹脂混合，再以G.P.S專利技術製成，具防刮、防污、抗撞擊及耐熱的特性；其獨特之處在加入了金屬夥粒，令表面閃閃發亮，令水槽與不銹鋼產品配搭更和諧。

Granitek - More Colours . More Choices. 顏色選擇多樣化

ELLECI Granitek is using ceramisation to colour the granite particle by using a special firing process above 700°C, which enables the colour penetrate into nucleus of the particle.

ELLECI的Granitek採用獨特的陶瓷化著色工藝技術，令顏色可有更多選擇；而透過700°C高溫燒製，令顏色深入花崗岩石夥粒的核心部份，使其不易褪色，更為耐用。
